

## Grading Rubric for Lab 11 (5 pts. Total):

1. The Monkey and Tiger class correctly extends the Animal class (1 pt.)
2. The program correctly categorizes private and public variables as shown within the UML diagram (1 pt.)
3. Instance variables (of Tiger or Monkey) correctly override the Animals class methods that are inherited (1 pt.)
4. All instance variables are stored within an array or vector to later be printed (organization of the printing is taken into consideration) (1 pt.)
5. The submission contains a make file (1 pt.)

If you submit a tarball that contains no files, or is corrupt in any way, **you will NOT be given any extension or allowed to resubmit**
