Grading Rubric for Lab 10 (5 pts. Total):

1. The program correctly converts characters into integers (1 pt.)
2. The program correctly stores the integers into the vectors (1 pt.)
3. The overloaded operators add, subtracts, and outputs the vector elements correctly (1 pt.)
4. The program outputs (to the console) the same thing as shown in the result file (1 pt.)
5. The submission contains a make file (1 pt.)

If you submit a tarball that contains no files, or is corrupt in any way, **you will NOT be given any extension or allowed to resubmit**
